## PARTNER LETTER

We are excited to partner with **Naut'sa mawt Tribal Council** this Month for the **Indigenous Green Economy Conference!** We look forward to seeing our clients there and having meaningful conversations with Federal and Provincial Governments, Industry and other BC First Nations about how First Nations can contribute to a Green economy! If you are interested in **attending** or **sponsoring** this fantastic event, it's not too late! Let's discuss how your organization can get involved.

Advise • Develop • Manage

## ADVANCED BUSINESS MATCH PRAIRIES

This month, Partner Grant Barley and Associate Zayge Klein attended the Advanced Business Match Prairies in Regina, Saskatchewan. ABM connects First Nations communities and businesses across the country to share stories and brainstorm solutions. We are proud sponsors and attendees of what we truly believe is the best First Nations networking event in Canada. We made great connections with future partners and clients. We can't wait to see how our services can make a difference in the Prairies!

**Associate Zayge Klein at the Strategies North Booth**

## KEY DATES

### March 13-14th: Indigenous Green Economy Conference 2019

Join Naut'sa mawt Tribal Council and Strategies North at the first annual Indigenous Green Economy Conference, at the Four Seasons Hotel in Vancouver, BC. Travel expenses for up to 2 delegates per BC First Nation will be covered.

### March 15th: Deadline for the Low Carbon Economy Fund: Partnerships

Environment and Climate Change 's Partnership Stream funds projects that reduce carbon & fight climate change.

### March 27th: CleanBC Communities

Investing in Canada Program's Green Infrastructure Stream Clean BC is due.

## LOW-CARBON ECONOMY CHALLENGE

**The Low Carbon Economy Challenge** is open to a wide range of applicants through two streams to support projects that reduce greenhouse gas (GHG) emissions, while also supporting clean growth.

**The Partnerships Stream** was created to support small and medium businesses with projects that reduce GHG emissions, encourage energy savings, and create jobs.

Eligible project sectors include: building energy efficiency and fuel switching, industrial, forestry, agriculture, waste, transportation, low-emissions fuel production, and electricity and/or energy production.

First Nations, Métis and Inuit government, communities, or organizations are eligible to receive a maximum level of 75% for federal assistance as a percentage of total eligible expenditures.

**Application Deadline:** March 8, 2019

**Eligibility:** The Partnerships stream is limited to:

- Indigenous communities and organizations
- Small and medium-sized businesses
- Not-for-profit organizations
- Small municipalities

## TIME IS RUNNING OUT - IGEC 2019

### Indigenous Green Economy Conference

*Two days of powerful conversations including keynotes from  
Dr. David Suzuki and Dr. Wade Davis.*

**March 13th & 14th, 2019 | Four Seasons Hotel, Vancouver, BC**

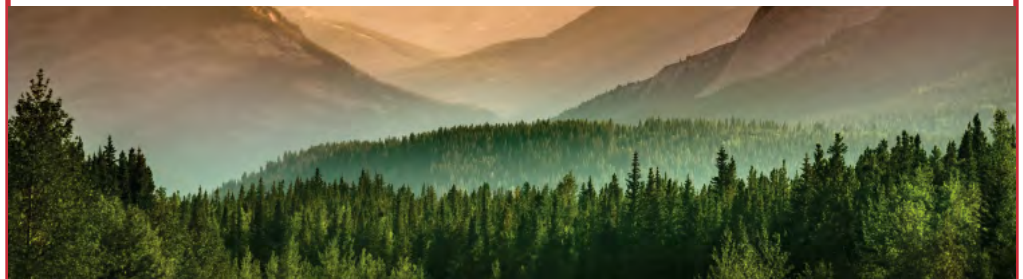

Bringing together First Nations Federal and provincial Government representatives and knowledgeable green industry leaders to build capacity, discuss climate change initiatives, and explore practical Indigenous opportunities in alternative energy and green economics.

Hosted by Naut'sa mawt Tribal Council, the Indigenous Green Economy Conference will facilitate the sharing of knowledge and new technologies, and empower First Nations to confidently pursue viable opportunities in the emerging green marketplace, with a focus on nation building and economic development.

**Registration open now.**
